\$1672 Electricity Rebate for Seniors and Concession Card Holders

Thanks to the Miles Government, Seniors and Concession Card Holders are entitled to a \$1372 electricity rebate! However, following the Federal Government's announcement of a \$300 electricity rebate, this brings Queensland Senior's total up to \$1672!

This is just one of the many cost of living relief initiatives our Government is providing for seniors.

Driving Down the Price of Fuel

If elected in October, a Miles Government will take action to drive down fuel prices. We will establish 12 publicly owned fuel stations. They will charge a fair price for fuel, increase competition, and give Queenslanders more choice when filling up.

It's part of our plan to lower fuel prices for all Queenslanders. We will also take on the multinational oil companies by:

- Banning fuel stations from raising the price of fuel more than once a day.
- Requiring petrol stations to release price changes a day in advance.
- Capping fuel price increases to no more than 5 cents a day, as part of a trial with the RACQ.

The household budget of Queensland families is our top priority, and I've heard how much the cost of fuel is adding up. Our Government will do whatever we can to bring prices down.
